# Turn Data into insights - Power BI

Classroom | Online | Corporate

# Power BI Course Contents

## Power BI Introduction to PowerBI?

What is BI  
Benefits of Power BI  
Components  
Power BI Desktop - Installation  
Building Blocks  
Demo - Sample Power BI Reports  
Creating a Simple Report

## Power BI Extracting, Transforming and Loading Data with Power Query

Get and edit Data - An ETL Tool (Extract, Transform, Load)  
Import Excel Tables within the workbook  
Import Text files or CSV from a Folder  
Import Txt files from Folder with File Name  
Import Excel files with sheet name  
Import All Excel Tables in one go  
Group By feature - Amazing and Easy to use  
Get data from SQL  
Get data from Website  
Understanding Power Query Editor  
Load vs Direct Query  
Append Queries  
Merge Queries  
Filtering Rows  
Split Columns based of Delimiter, Merge Columns  
Eliminating Columns  
Creating Custom Column based on the Conditions  
Refresh Queries  
Introduction to M Query Language

## Power BI Data Modelling

Introduction to Data Modeling  
Creating Relationship between tables  
Building a data model

- Hiding columns from Reporting View
- Sorting and Formatting
- Creating Hierarchies

Create Calculated columns - M Language

Creating a Date Dimension  
Create Robust Data Models intuitively

## Power BI Power BI Visualizations

Introduction to visuals in Power BI  
Create and customize simple visualizations  
Recommended Charts for your data set  
Bar Charts and Column Charts  
Line Charts and funnel Charts  
Pie Charts and Donut Charts  
Tree Charts and Maps  
Combination Charts  
KPI and Card Charts  
Table and Matrix Views  
Buttons and Bookmarks  
Adding Text box, Shapes, and Images to Reports  
Creating Stunning Dashboard 8- Interactive Reports in few clicks  
Filters  
Slicers  
Parameters  
Manage Interaction between objects  
Drill down/Roll Up

## Power BI Introduction to DAX Language

Introduction to DAX Functions  
DAX Syntax  
DAX Data Types  
DAX Operators  
DAX Functions

- Logical Functions
- Aggregate Functions
- Date and Time Functions
- Text Functions
- Mathematical Functions
- About Calculate Function

## Power BI Publishing and Sharing Power BI Reports

Publish from Power BI Desktop  
Working with Power BI Service

- On Web
- On Mobile/Tab

Export Data from a Visualization Sharing Dashboards.  
Refreshing Datasets  
Manage Roles.
